

# TRIGGERS FOR POTENTIAL ELEVATION OF SECURITY AND POLICY REVIEW CASES

- A-10 Modernization within divestment sunset window
- ABMS, Networked sensors and sensing
- Advance Manufacturing and Materials
- AETD Engine Technology

- Affects national security policy or foreign relations

- AIM-260 JATM, JASSM-ER, other advanced weapons and weapons replenishment

- Animal testing

- Any other contemporary topic that is designated by the Defense Office of Prepublication and Security Review (DOPSR) or SAF/PA (i.e. personnel readiness)

- Artificial Intelligence, Machine Learning, Human-machine interfaces

- B-21

- Big Safari

- Biotech/Synthetic biology

- Chemical and biological warfare issues; biological and toxin research

- Collaborative Combat Aircraft

- Concerns subjects of potential controversy among DoD components or with other Federal agencies

- Contains technical data, including data developed under contract or independently developed and controlled by the

- International Traffic in Arms Regulations (ITARs)

- COVID-19 testing, operations or research

- cUAS, cSUAS

- Cyber warfare, cyber vulnerabilities, cyber research

- Deployment schedules or locations

- Detailed descriptions of a sequence of events in an operational or training scenario, or exercise to include major exercises such as operational readiness inspections or Flag/major training exercises

- Detailed descriptions that reveal capability of unique command and control node (Space Operations Centers, Air Operations Centers, etc.)

- Directed energy

- E-7A Wedgetail

- E-8C JSTARS

- Electronic/Spectrum Warfare

- F-15EX

- F22 / F35

- High-energy lasers and particle beam technology; and arms control treaty implementation

- Hypersonics (including HiFire)

- Hypersonics, AGM-183A ARRW, HACM

- Information related to current operations, readiness or posture for future operations

- Information that reveals tactics, techniques and procedures

- IoBT – Internet of Battlefield Things

- Information that is presented by a DoD employee who, by virtue of rank, position, or expertise, would be considered an official DoD spokesperson

- Is, or has the potential to become, an item of national or international interest

- Joint Simulation Environment

- KC-46A deficiencies

- Low Observables

- MC-130J/lasers

- MH-139A

- Microelectronics

- Military activities or applications in space, nuclear weapons, including weapon-effects research

- Military operations, significant exercises, and operations security

- MQ-9 modernization

- MQ-Next

- New weapons or weapon systems, significant modifications or improvements to existing weapons or weapon systems, equipment, or techniques

- NGAD

- Nuclear modernization/NC3/GBSD/LRSO/Mk-XX

- Originates, or is proposed for release, in the Washington D.C. metropolitan area

- PFOS/PFAS/water contamination issues

- Quantum computing

- Rapid Dragon

- References President and Secretary of Defense authority

- Renewable Energy Generation/Storage

- Significant Aircraft/Weapon System/Fleet issues with - significant operational/sustainment/ availability/readiness impacts, and major capability enhancements

- Space Technologies and Systems, Domain Awareness

- Tests/experimentation/exercises/involving foreign partners  
UAS/UAV/RPAs (drones & remotely piloted aircraft)

- Ukraine Support

- UPEs / OBOGS / hypobaria / hypoxia (unexplained physiological events, white brain matter, etc.)

- Work in conjunction with a sister service or other DoD component that has had no coordination documented when we receive materials

- Work with another AF installation or Wing that has had no coordination documented when we receive materials
